

EcoSpray®/EcoClean®

EcoSpray®/EcoClean® products are designed for enhanced consumer and environmental safety.

Safer for the Environment

- No aerosols
- No propellants
- Non-flammable*
- No 1,1,1 trichloroethane
- No ozone-depleting CFCs

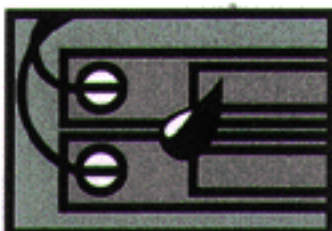

- Non-hardening
- Rustproof coating

Environmentally Tested Spray Technology

EcoSpray® and EcoClean® products attack the toughest maintenance duties with respect for the environment. They incorporate non-toxic, biodegradable chemicals without

aerosols, propellants, or ozone-depleting CFCs. Fast-acting, dependable, and safe to handle, EcoSpray® and EcoClean® lead the way in environmentally safe technology.

- Protects against and stops corrosion
- Multimetal protection
- Silicone-free

Electronic Cleaner 238

Protects electrical and electronic contacts and components.

- Fast cleaning
- Removes oil & grease
- Prevents corrosion
- Biodegradable

Cleaner & Degreaser 416

A non-toxic liquid to remove heavy hydrocarbons, grease and machinery oils.

- Stops squeaks
- Loosens rusty parts
- Frees sticky mechanisms
- Stops rust
- Water Displacing

Industrial Lubricant 325

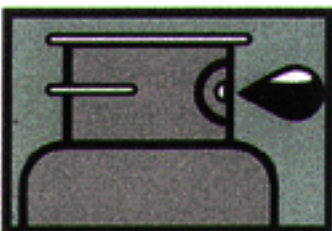

Replaces oils with natural, biodegradable lubricants and corrosion inhibitors.

- Removes rust & scale
- Loosens rusty parts
- Stops flash rust
- Biodegradable
- Non-polluting

Rust Remover 423

This viscous liquid uses natural organics to remove rust, scale and oxides.

- Long Lasting
- Non-hardening
- Rust-proof coating
- Effective outdoors
- Water dilutable
- Hydrophobic film

Rust Blocker 389

Water-based coating to rust-proof iron, steel and other ferrous metals.

- Removes graffiti, ink & paint
- Low odor
- Non-flammable
- Free of methylene chloride & ketones

Graffiti Remover 433

Removes graffiti, inks, paints from metal, concrete and wood.

Safe for the environment

EcoSpray® and EcoClean® products do not contain propellants, CFCs or HCFCs that affect the atmosphere, ozone layer or environment. When possible, EcoSpray® and EcoClean® products are formulated with ingredients rated for their biodegradability and non-polluting characteristics. They minimize waste disposal.

Safe for storage

EcoSpray® and EcoClean® products have no storage or added fire insurance restrictions. They can be stored like any non-aerosol lubricant or cleaner. Store at room temperature. Do not let product freeze.

Safe for shipping

EcoSpray® and EcoClean® products can be shipped by air freight or any other conventional shipping method.

Safe for the user

EcoSpray® and EcoClean® products have been specially formulated to improve safety for the

consumer as well as the environment. These safety improvements are reflected in the HMIS ratings for each product shown here. The products do not contain 1,1,1 trichloroethane, methylene chloride or chlorinated solvents.

Packaging

EcoSpray® and EcoClean® products are packaged in 16 fluid ounce (0.5 liter) recyclable bottles. They are available with 12 bottles per carton in a mixed pack of two of each product per carton or 12 of the same product per carton. The products can also be purchased in pallet load quantities and a variety of drum size containers. Refills are available in 5 gallon (19 liter) pails and 55 gallon (208 liter) drums.

*VCI 238 contains mineral spirits with a flash point of 133°F (56°C).
